Jacobian evolution: same initial source, 64² single-circle model
Full DLR includes (1−t)I; error lines use common probes, hollow diamonds refine terminal errors
Stable rank (native is estimated)
Flow time t
Native, 100 Euler steps
DLR, 100 Euler steps
Native, 5 Euler steps
DLR, 5 Euler steps
Largest singular value (native is estimated)
Estimated relative Frobenius error (%)
100 Euler steps
5 Euler steps
Noise-gradient norm: DLR / native
